

# Appropriate Responses to the Seven Phases of the Escalation Cycle

*Managing the Cycle of Acting-Out Behavior in the Classroom (Colvin, 2004)*

## **Phase 1: Calm**

Classroom Structure & Quality Instruction

- Supervise, reduce distractions, and provide quiet space.
- Establish and teach CLEAR expectations and acknowledge and praise compliance.
- Establish routines to decrease downtime and disruptions.
- Plan ahead for starter activities, transitions, and entry and exit routines.

## **Phase 2: Triggers**

- Identify the situation where the behavior is likely to occur.
- Use pre-correction to teach appropriate response. Rehearse the expectations, prompt or remind students as needed, provide specific praise and reinforcement.
- Work with all staff and faculty to teach and reinforce social skills.
- School and non-school triggers-- Group social skills, anger management, community services.

## **Phase 3: Agitation**

- Show empathy: recognize the student's problem and communicate concern.
- Redirect and help the student become engaged in activity, lesson or task (passive or movement).
- Provide choices.
- Provide space in a quiet area or allow students to disengage briefly or put their heads down.
- Use proximity or brief interactions; show acceptance.

## **Phase 4: Acceleration**

- Pause and Assess- "Is this an emergency situation?"
- Avoid escalating the student's behavior.
- Pausing rather than responding immediately shows students that while they may be out of control, staff are calm and controlled.
- Use a calm but serious tone.
- If the situation escalates, withdraw and follow school procedures for emergency situations.

## **Phase 5: Peak**

- Focus on student and staff safety.
- Notify necessary staff of situations and provide directions for response.
- If needed, evacuate others.
- Contact appropriate assistance.
- If an ESI was used—Notify parents, document, debrief and learn from it.

## **Phase 6: De-escalation**

- Monitor for health and safety.
- Once escalation is over, allow student space to calm down, under supervision.
- Avoid blaming—provide opportunity for non-judgmental discussion.
- Provide independent work that is fairly easy to complete to help regain focus.
- Debrief and document the incident to provide data for ongoing planning for safety.

## **Phase 7: Recovery**

- Help student return to normal activities and engage in learning.
- Continue with planned consequence and do not discuss or negotiate.
- Acknowledge cooperative and appropriate behavior.
- Encourage and support student in changing problem behavior.

# Escalation Cycle (adapted from Bounds, 2003)

*\*This is a tool teams can utilize to plan responses to each phase of the acting out cycle. This should be a part of a comprehensive positive behavior support plan.*

Specific Student Responses						
<b>Calm</b> Cooperative	<b>Triggers</b> Unresolved conflicts	<b>Agitation</b> Unfocused	<b>Acceleration</b> Focused/intense	<b>Peak</b> Most severe	<b>De-escalation</b> Confused	<b>Recovery</b> Non-engage/alone
Specific Staff/Adult Response						
Prevention	Prevention and redirection	Reduce anxiety	Safety	Crisis intervention	Remove excess attention	Re-establish routines
