

Structured Teaching Methods

Presenters: Eileen Webster & Stephanie Becker

This 3 day training covers the elements of Structured Teaching and how to apply those elements to all settings. You will have an opportunity to design the most optimal physical structure for your classroom, create a mock visual schedule, design a work system that flows in your setting, see many examples of visual supports and routines and we will help you visually structure a task you already use in your classroom so that it could work for several different ability levels of your students.

Opportunity Now Cafeteria

Tuesday, June 1st: 8:30-3:30 (hour lunch)
Wednesday, June 2nd: 8:30-3:30 (hour lunch)
Thursday, June 3rd: 8:30-3:30 (hour lunch)
